

UNITY WORKS

Unity Works offers people with a learning disability the chance to:

- Train and gain skills in a working business
- Learning quality skills for employment
- As well as softer skills for personal growth and development

It is a great first step into your pathway to employment

You can build up experience of work for your CV

And have the option to complete accredited qualifications too

Your training placement can be paid for from EHCP, Personal Budgets or direct Payment or self funded

Your Learning Pathway

Complete a referral form

Meet with our Training & Skills Coordinator, to discuss which skills area you would like to develop

This could be working with food, customer service, office based, warehouse, or gardening and woodworking

It is ok if you do not know what you might be interested in

You can then have a taster day at one of the enterprises

UNITY WORKS

If you enjoy this day then we will work with the circles of support around you to:

- Make a plan with you about your goals

- Agree the budget for the training

Then start in your training placement!

You do not have to decide straight away if you wish to do a qualification

You can choose to do this at any point in your placement

Your placement will last as long as you are working towards something

You will have your own Individual Learning Plan

UNITY WORKS

Individual Learning Plans

These are unique to you

They start with you and where you are at

They track and monitor your goals

They respond to your needs

And they help you reach your aspirations and future pathways.

Some of the qualifications that trainees have done in the past are:

- Hospitality
- Food Preparation
- Warehouse and Storage Skills
